HOW TO PLAY

You've been assigned to protect a beautiful woman, who also happens to be an important Euro MP in Brussels. In TORRENTE 3: The Protector you will assume the role of "The greatest cop in the history of Spain" and live, work, and play as Torrente. If you want to complete the game successfully, moving from level to level, it is essential that you become as one, body and soul, with our hero. You will have to adapt your way of thinking and playing to figure out what Torrente would do in each situation you are faced with. In order to get under the skin of the man himself, the game has been designed with a series of tasks, missions and levels. It situates our hero in his natural habitat, MADRID, the city where he was born. The character of Torrente has been developed along the same lines as the original to achieving what is called "Torrentism". Torrentism is based on factors, traits and needs of the character that, depending on their level and how they progress, will give you an overall Torrentism Rating at any given moment in the game. The Torrentism rating starts at level 1, representing Torrente at the start of the game. Your objective is to reach level 4. To do this you will have to carry out a number of tasks at each level associated with different aspects of Torrente's life.These aspects are: SEX, DIRTY STUFF, INSPECTOR, ATLETI FAN, MONEY, AND STORY. Each aspect has its own status bar (or level) that shows your progress. The average score from all aspects gives you your Torrentism rating at any moment. This is shown on the screen on a status bar that appears next to Torrente's face. Once this status bar is full, you move up to the next level. There is no pre-established order in which you have to carry out tasks. The levels, however, must be completed in order. You must progress until you reach the highest level. You will be kept informed at all times of the tasks you need to carry out at each level, via messages that will appear at the bottom of the screen.
